Qusai Alshayeb

Amman, Jordan |0796435303|qusaialshayebdeveloper@gmail.com|my-link|my-git

PROFILE

I have extensive experience in developing Windows and web applications using Microsoft technologies such as C#, MVC, ASP .Net, Entity Framework, Web API, and more. As a full-stack developer, I am equally comfortable working on both the front and back end of the application.

To ensure that I deliver the desired outcome, I always communicate with my clients to have a clear understanding of their requirements and vision for the project. Thank you for considering my services. I am eager to collaborate with you soon.

EDUCATION

bachelor's degree in computer engineering   OCT-2022
Al-Hussein Bin Talal University

SKILLS

- ASP.NET MVC
- Microsoft SQL Server
- JavaScript
- C#
- HTML

- CSS
- Bootstrap
- OOP
- SQL programming
- Rest Api

WORK EXPERIENCE

Freelancer   2022-2023

- I have experience in developing and maintaining ASP.NET web applications and websites for various clients.
- I worked closely with team members to ensure timely project delivery.
- I have developed custom web applications that have resulted in increased client satisfaction rates.
- I also maintained and updated existing web applications, improving their functionality and user experience.
- I created automated testing suites, which resulted in a 40% decrease in bug reports. Overall, I collaborated with team members to meet project deadlines and deliver successful projects.

OPTIMIZA   MAY2022-OCT2022

a trainee in the field of Linux System Administration.

- I was responsible for managing users, groups, and access controls to ensure system security and compliance with industry standards.
- I also implemented automated system imaging techniques that resulted in a 50% reduction in deployment time. Additionally, I provided technical support and troubleshooting for Linux-based workstations, resolving issues within defined service level agreements (SLAs).
